

Manage diagram views

There can be multiple different diagram views that apply to an asset. Each view has a name and a description and can be shared. Only one view can be the default.

1. Open an asset page.
2. Click **Traceability > Diagram**. Wait for the default diagram to render
3. You can perform the following tasks to work with the diagram views:

To create a new view,	<ol style="list-style-type: none">1. Click .2. Click + View.3. In the Text tab, type the JSON code lines you need to design the appropriate diagram view. To understand how to design a diagram view, click here.4. Click .
To modify an existing view,	<ol style="list-style-type: none">1. Select the view you want to modify.2. Click  > Properties.3. Make the necessary changes. To understand how to design a diagram view, click here.4. Click .
To copy an existing view (for example if you do not want to create a view from scratch),	<ol style="list-style-type: none">1. Select the view you want to copy.2. Click  > Copy.3. Provide a unique name and description (optional)4. Make the necessary changes to the view. To understand how to design a diagram view, click here.5. Click .
To delete an existing view,	<ol style="list-style-type: none">1. Select the view you want to delete.2. Click  > Delete.3. Confirm by clicking OK.
To see a graphical representation of the view	<ol style="list-style-type: none">1. Select the view you want to see in graphical form.2. Click  > Properties.3. Click the Diagram tab.

While you are creating or modifying a diagram view, you can also do the following:

- Share the view with every user, by selecting the **Share with everyone** check box.
Note: You need the global permission to "Share your own Views, Dashboards, Search filters", or "Manage and share anyone's Views, Dashboards, Search filters"
- Make the view default for every user, by selecting the **Make default for everyone** check box.
Selecting this check box sets this view as default for all applicable assets.
Note: You can only select this check box if:
 - The **Share with everyone** check box has been selected.
 - You have the global permission to "Manage and share anyone's Views, Dashboards, Search filters".
