Traceability diagram Display toolbar: buttons

The display toolbar helps you to optimize your diagram experience.

Button	Name	Description
Hierarchy bottom -> up	Layout	Enables you to select the layout you need. The different layouts change the location of nodes and edges, but do not change which nodes and edges are displayed. See Diagram layout options.
1:1	Zoom to readable value	Zooms the diagram to a size that is readable.
	Zoom in	Zooms in on the diagram.
	Zoom out	Zooms out of the diagram.
	Shrink to fit	Zooms the diagram to a size that fits the screen.
	Overview	Displays or hides the overview inset that enables you to zoom and navigate a diagram that is too large to fit the screen. See Use the Overview inset.
	Labels	Displays or hides the labels of the edges.
	Spotlight	Enables you to select a node and dims all the nodes that are not directly related to it.
	Redraw	Undoes all the display changes you made and restores the diagram to the original view and layout.
	Export to PDF	Creates a printable file in PDF format of the currently displayed diagram and downloads it to the download location of your browser. See Export a diagram to PDF
	Fullscreen	Displays the diagram on a full screen. The Tab bar on the left is hidden, as well as the Main menu, the Breadcrumb bar, the Search bar and the Title bar.
	Preview	Displays a panel on the right side of the screen. The panel contains information about the currently selected node (asset or complex relation). It is a condensed form of the same information you can find on the asset page of the asset. See Display a preview in the traceability diagram.
