Diagram layout options

- **Flow / Context**: Layout style for diagrams with a flow and a context. Nodes and edges in the flow are displayed mostly from left to right. The nodes and edges in a context are displayed above the flow.

- **Hierarchy left -> right**: Nodes and edges are displayed in a flow from left to right. This is the default setting.

- **Hierarchy top -> down**: Nodes and edges are displayed in a flow from top to bottom.

- **Hierarchy bottom -> up**: Nodes and edges are displayed in a flow from bottom to top.

- **Circular**: Nodes and edges are arranged in a radial tree.

- **Radial**: Nodes and edges are displayed with no overlaps, few edge crossings and few bends.

- **Smart Organic**: Nodes and edges are distributed in a well-balanced manner, there are few edge crossings.
