# Export a diagram to PDF

If you need a hardcopy of a diagram (for example to print it), you can export it to PDF file format.

1. Open an asset page.
2. Click **Traceability > Diagram**.
3. Display the diagram to meet your needs.
   - Select a view.
   - If needed, do one or more of the following:
   - Select a layout.
   - Explore.
   - move nodes, enable or disable labels, etc
4. Click the **Export to PDF** button.

The PDF file is automatically downloaded to the download folder of your browser. The filename is simply 'diagram.pdf'.
