Display a preview in the traceability diagram

The preview in the traceability diagram enables you to display detailed information about a node.

Follow these steps if you want to display detailed information about a node.

1. Open an asset page.
2. Click **Traceability > Diagram**.
3. Select a node.
4. On the diagram toolbar, click [👁].
   The preview panel is displayed on the right.
   You can now click any item that is underlined when you move your mouse pointer over it.

Traceability > Diagram
